

The Liver Transplant Symposium 2017

27-29 October

NUHS TOWER BLOCK
SINGAPORE

We take great pleasure to invite you to
The Liver Transplant Symposium 2017.

This symposium aims to advance knowledge and expertise in liver transplantation, through multi-disciplinary collaborations within the transplant community, to improve the outcomes of our patients.

This year, we are proud to invite many international faculty members who are world-renowned key opinion leaders, to discuss state of the art topics with a special focus on best practices in Southeast Asia.

SPEAKER HIGHLIGHTS

A/Prof. Albert Chan

Queen Mary Hospital
The University of Hong Kong
Hong Kong

Dr. John Klinck

Cambridge University Hospitals
Cambridge, United Kingdom

Prof. Kathryn Wood

University of Oxford
United Kingdom

DAY 1 • 28 OCTOBER 2017

Session 1: Surgery

Plenary 1: ABO Incompatible Living Donor Liver Transplantation - The current evidence

Session 2: Hepatology

Plenary 2: DSA in Liver Recipients: Much ado about nothing?

Session 3: Combined

Plenary 3: Sarcopenia in LT

Session 4: Periop + Nursing/TC

DAY 2 • 29 OCTOBER 2017

Session 5: Combined

Plenary 4: Immunotherapy for HCC: Checkpoint or Checkmate?

Session 6: Perioperative Challenge

Plenary 5: The older patient with multiple co-morbidities: When should we say no?

** Programme accurate as at 30 June 2017, subject to changes without notice.*

REGISTRATION FEES (MAIN SYMPOSIUM ONLY)

Clinician

S\$250 (Early Bird - Till 31 Aug)

S\$350 (From 1 Sep)

Trainee / Student / Nurse / Allied Health

S\$100 (Early Bird - Till 31 Aug)

S\$200 (From 1 Sep)

Visit www.livertransplantsymposium.sg for more information.

Organised by

National University Centre for
Organ Transplantation (NUCOT)

In partnership with

INTERNATIONAL LIVER TRANSPLANTATION SOCIETY

Supported by

Held in

A member of the NUHS

**LIVER TRANSPLANT
SURGICAL
WORKSHOP**
27 October 2017
08:00 - 13:00

Registration Fees*:

S\$600 (Early Bird
- Till 31 Aug)

S\$700 (From 1 Sep)

Course Director

Dr. Alfred KOW, National University Hospital, Singapore

Aims & Objectives

- To provide participants with the concepts of surgical techniques in liver transplantation
- To demonstrate standard approaches to liver transplant surgery via video demonstration
- To allow participants to perform liver transplantation using animal hands-on dissection

Who should attend?

- Surgical trainees and surgical fellows interested in liver transplantation
- Surgeons who would like to understand liver transplantation
- Residents around the region

**SIMULATION IN
ANAESTHESIA
FOR LIVER
TRANSPLANTATION
(SALT) WORKSHOP**
27 October 2017
13:00 - 18:00

Registration Fees*:

S\$500 (Early Bird
- Till 31 Aug)

S\$600 (From 1 Sep)

Course Directors

Dr. Terry PAN, National University Hospital, Singapore

Aims & Objectives

- To increase familiarity with the conduct of liver transplant anaesthesia, including reference to unique pathophysiology of liver transplant patients
- To provide an insight into haemodynamic monitoring and point of care coagulation management
- To discuss and manage potential complications arising during liver transplant anaesthesia
- To improve interdisciplinary communication and teamwork

Who should attend?

- Senior Anaesthesia Residents and Clinical Fellows with an interest in liver transplant anaesthesia
- Junior Consultant Anaesthetists embarking on their liver transplant career
- Anaesthetic nurses or assistants working in a liver transplant theatre

**TRANSPLANT
HEPATOLOGY
WORKSHOP**
27 October 2017
13:00 - 18:00

Registration Fees*:

S\$300 (Early Bird
- Till 31 Aug)

S\$400 (From 1 Sep)

Course Directors

Dr. Kieron LIM, National University Hospital, Singapore

Dr. Mark MUTHIAH, National University Hospital, Singapore

Aims & Objectives

The Transplant Hepatology Workshop will provide an excellent opportunity for medical professionals and trainees in hepatology to discuss management principles of complex cases in a multi-disciplinary team setting. A combination of lectures facilitated by the expert faculty will enable efficient knowledge transfer by reviewing the latest evidence-based medicine and working through real life case scenarios.

Who should attend?

- Hepatology trainees
- Gastroenterologists and physicians interested in liver transplantation
- Infections diseases & pathology trainees

* Workshop registration fees include admission to Main Symposium on 28 & 29 Oct 2017.
