

The 2018 Joint International  
Congress of ILTS,  
ELITA & LICAGE

## ILTS/ELITA/LICAGE Lisbon 23-26 May 2018

### Congress highlights:

#### Children and Young Adults

*The Lisbon congress features state-of-the-art scientific and educational content for all disciplines involved in liver transplantation. Much of the program is broadly relevant to pediatric practice, but the following lectures and discussions will focus specifically on children and young adults.*

#### Vanguard Grand Round Case Presentation

Chairs: Alan Contreras, Ashish Singhal

**Cholangiopathy: Insight from explant liver graft from a child with severe postoperative hypoxemia due to hepatopulmonary syndrome**

Joseph Valampampil

Roberto Hernandez-Alejandro

#### Symposium: The sick pediatric liver recipient

Chairs: Michael Stormon, Paolo Muiesan

**Hyperammonemia & other metabolic decompensations in metabolic liver disease**

Roshni Vara

**Neuro-monitoring & outcomes in children with acute liver failure**

Pierre Tissieres

## Surgical innovation in pediatric liver transplant

Mureo Kasahara

## Managing severe peri-transplant hypoxemia in children with hepatopulmonary syndrome

Anil Dhawan

## Vascular complications in pediatric recipients

Chao-Long Chen

## Panel discussion

## Debates in current pediatric practice

Chairs: Jan Lerut, Xia Qiang

## Centralisation of pediatric liver transplant services is essential for optimal outcomes

João Seda-Neto

Manuel Rodriguez

## Long-term graft fibrosis: Is it goodbye for immunosuppression withdrawal?

Deirdre Kelly

Nazia Selzner

## Reducing waiting list mortality in children: LDLT, not more variant & marginal grafts is the answer

Mohamed Rela

George V. Mazariegos

## Oral abstract presentations: dedicated 90-minute session on children and young adults
