

DR. YOON YOUNGJIN

Dr. Yoon Youngjin trained as a fellow in Liver Transplantation and Hepatobiliary Surgery at Asan Medical Center, a teaching hospital of the University of Ulsan College of Medicine, in Seoul, South Korea from 2013-2015. From 2016-2017, she worked at Korea University Medical Center as a clinical assistant professor. Since returning to Asan Medical Center in 2018, she has continued as a clinical assistant professor in the Organ Transplantation Center as well as the Liver Center. Currently, she has focused her research interests on ABO-incompatible adult living donor liver transplantation, adult living donor liver transplantation for hepatocellular carcinoma, and minimal invasive donor hepatectomy. She has received several awards, including the Young Investigator Award of ILTS in 2016. Her publications in the field of transplantation have been published in the *Annals of Surgery* and the *Journal of Hepatology*, among several other journals.
